

WOVEN FABRIC FIBER DETAIL SHEET

EK-1

Necessary information and specification details for the woven fabrics produced of syntetic-artificial-natural fibers/yarns to be imported into Turkey under the Invoice dated.....and No.....

Man-made Fibers (Continuous Yarns) and Any Mixture with continuous yarns [I]				Ring/Open-end yarn production system (short staple) and mixtures [II]				Worsted - Woolen yarn production system (long staple) and mixtures [III]				
Detailed Specification Yarn of Fabric				Fiber		Yarn Composition		Fiber		Yarn Composition		
				Warp %	Weft %	Warp %	Weft %	Warp %	Weft %			
				Carded cotton				Polyester top				
Type of yarn				Combed cotton				Poly. top(coloured)				
Yarn Composition				Linen				Viscose				
Warp %												
Weft %												
Luster / Shape of yarn				Semidull				Viscose (coloured)				
ITY		Polyester		Trilobal				Wool top				
DTY		Polyamide		Cationic				Wool top (coloured)				
SDY		Viscose		Dope Dyed				Mohair				
NEP		Silk		Full Dull				Mohair (coloured)				
Double component(Coloured)		Methalic		Bright				Linen top				
		Viscose Filament		Covered Yarn				Acrylic				
Other (Specify)		Acetat		Other(specify)				Viscose Filament				
		Ramie							Acetat			
		Other (specify)							Ramie			
				Other (specify)				Other (specify)				

COLUMN IV						COLUMN V			COLUMN VI		
Detailed Specification of Woven Fabric						Yarn Count	Warp	Weft	Country of Origin :		
						Ne			Shipping Country :		
How Woven?						Nm			Invoice Date, No. :		
How Finished?						Denier/Filament			Invoice Quantity (Mts.) :		
Fabric Details						Turns (TPM)			Invoice Quantity (M ²) :		
Specification						Package Dyeing	Yes / No	Yes / No	Invoice Value :		
Width (cm)						Shantung	Yes / No	Yes / No	Gross Kgs. :		
Weight(gr/mt)						Elastomeric	Warp %	Weft %	Net Kgs. :		
Weight(gr/sqm)						EA			Specifying Notes :		
Density of Warp per cm						Other(specify)					
Density of Weft per cm						Used Dtex	Warp	Weft			
Other (Specify)						Dtex No.					

I, the undersigned, declare that the goods described above meet the conditions required for the issue of this certificate.

NOTE:

- 1- First step to start to fill the "Woven Fabric Fiber Detail Sheet" is to determine the kind of fiber for yarn production, which represents either **Continuous fibers(I)** or, **Short staple(II)** or, **Long staple(III)**. According the yarn production system the related box of fiber to be marked with (X). In case any other kind of fiber used than the above existing one, this has to be specified in the same box or in the Specifying Notes section.
- 2- Yarn composition percentages in warp and weft to be written in the line with (X) marked fiber box.
- 3- Column IV comprises of the type of Woven, Finishing [to be marked (X)] and fabric details as greige and finished (to be given actual figures of fabric).
- 4- Column V comprises of the details of yarn count, turns(TPM) and elastomeric fiber details if used. In case the yarn count is more than one in warp and weft, then the average count of those yarns is to be written.
- 5- Column VI comprises of the shipping details of consignment.
